Inspiring!

Phil shares his story of turning adversity into unexpected creativity, using art as a tool for reflection and growth. Through *engaging visuals* and thoughtful storytelling, he reveals how limitations can become starting points rather than setbacks. His approach resonates far beyond the art world, offering practical and inspiring ways for anyone to navigate challenges with clarity, curiosity, and a creative mindset.

"I was a little hesitant about the session because I'm not an art person, but I LOVED IT! This session was about so much more than just art - Phil helped teach a lot about life and working/helping others. I highly recommend Phil's session!" (BBBS attendee)

"Thanks to Phil for the inspiration to think bigger"

"I think Phil's presentation rocks, and this was my 3rd time seeing his presentation, as the camera operator & projectionist on the local show production crew here in Orlando. I am always impressed when other members of the local production crew are wowed by Phil's presentation, as they were again today. Phil rocks the corporate convention speaking scene."

Attendees will be able to zoom into the artwork at the end of Phil's presentation. They will be able to look for their drawings and delight in other people's creations

*Please note

— We recommend selecting a bright, bold image with one clear focal point. Since mosaic artwork is built from many individual drawings, the finished piece often takes on an impressionistic quality. If you're unsure whether an image will work, blur your eyes - if the subject still stands out, it's likely a strong choice.

— Your image doesn't have to directly tie to your theme. Some of the most powerful results come from surprising or abstract choices, because the true meaning comes from creating it together. Pick something you'd happily display in your own space.

— Venue must have WiFi OR a good cell signal
